

NETTAB 2006

*Distributed Applications, WEB
Services, Tools and GRID
Infrastructures for
Bioinformatics*

end of June / begin of July 2006
Cagliari, Sardinia

Committees

- Workshop Chairs

- Giuliano Armano, Univ. of Cagliari - Italy
- Luciano Milanesi, ITB-CNR, Milan - Italy
- Paolo Romano, IST, Genoa - Italy

- Organizing Chairs

- Alessandro Orro, ITB-CNR, Milan - Italy
- Eloisa Vargiu, Univ. of Cagliari - Italy

Why Sardinia ?

- Research Centers in ICT and Biotech
 - Polaris: www.polaris.c21.it
 - CRS4: www.crs4.it (open positions)

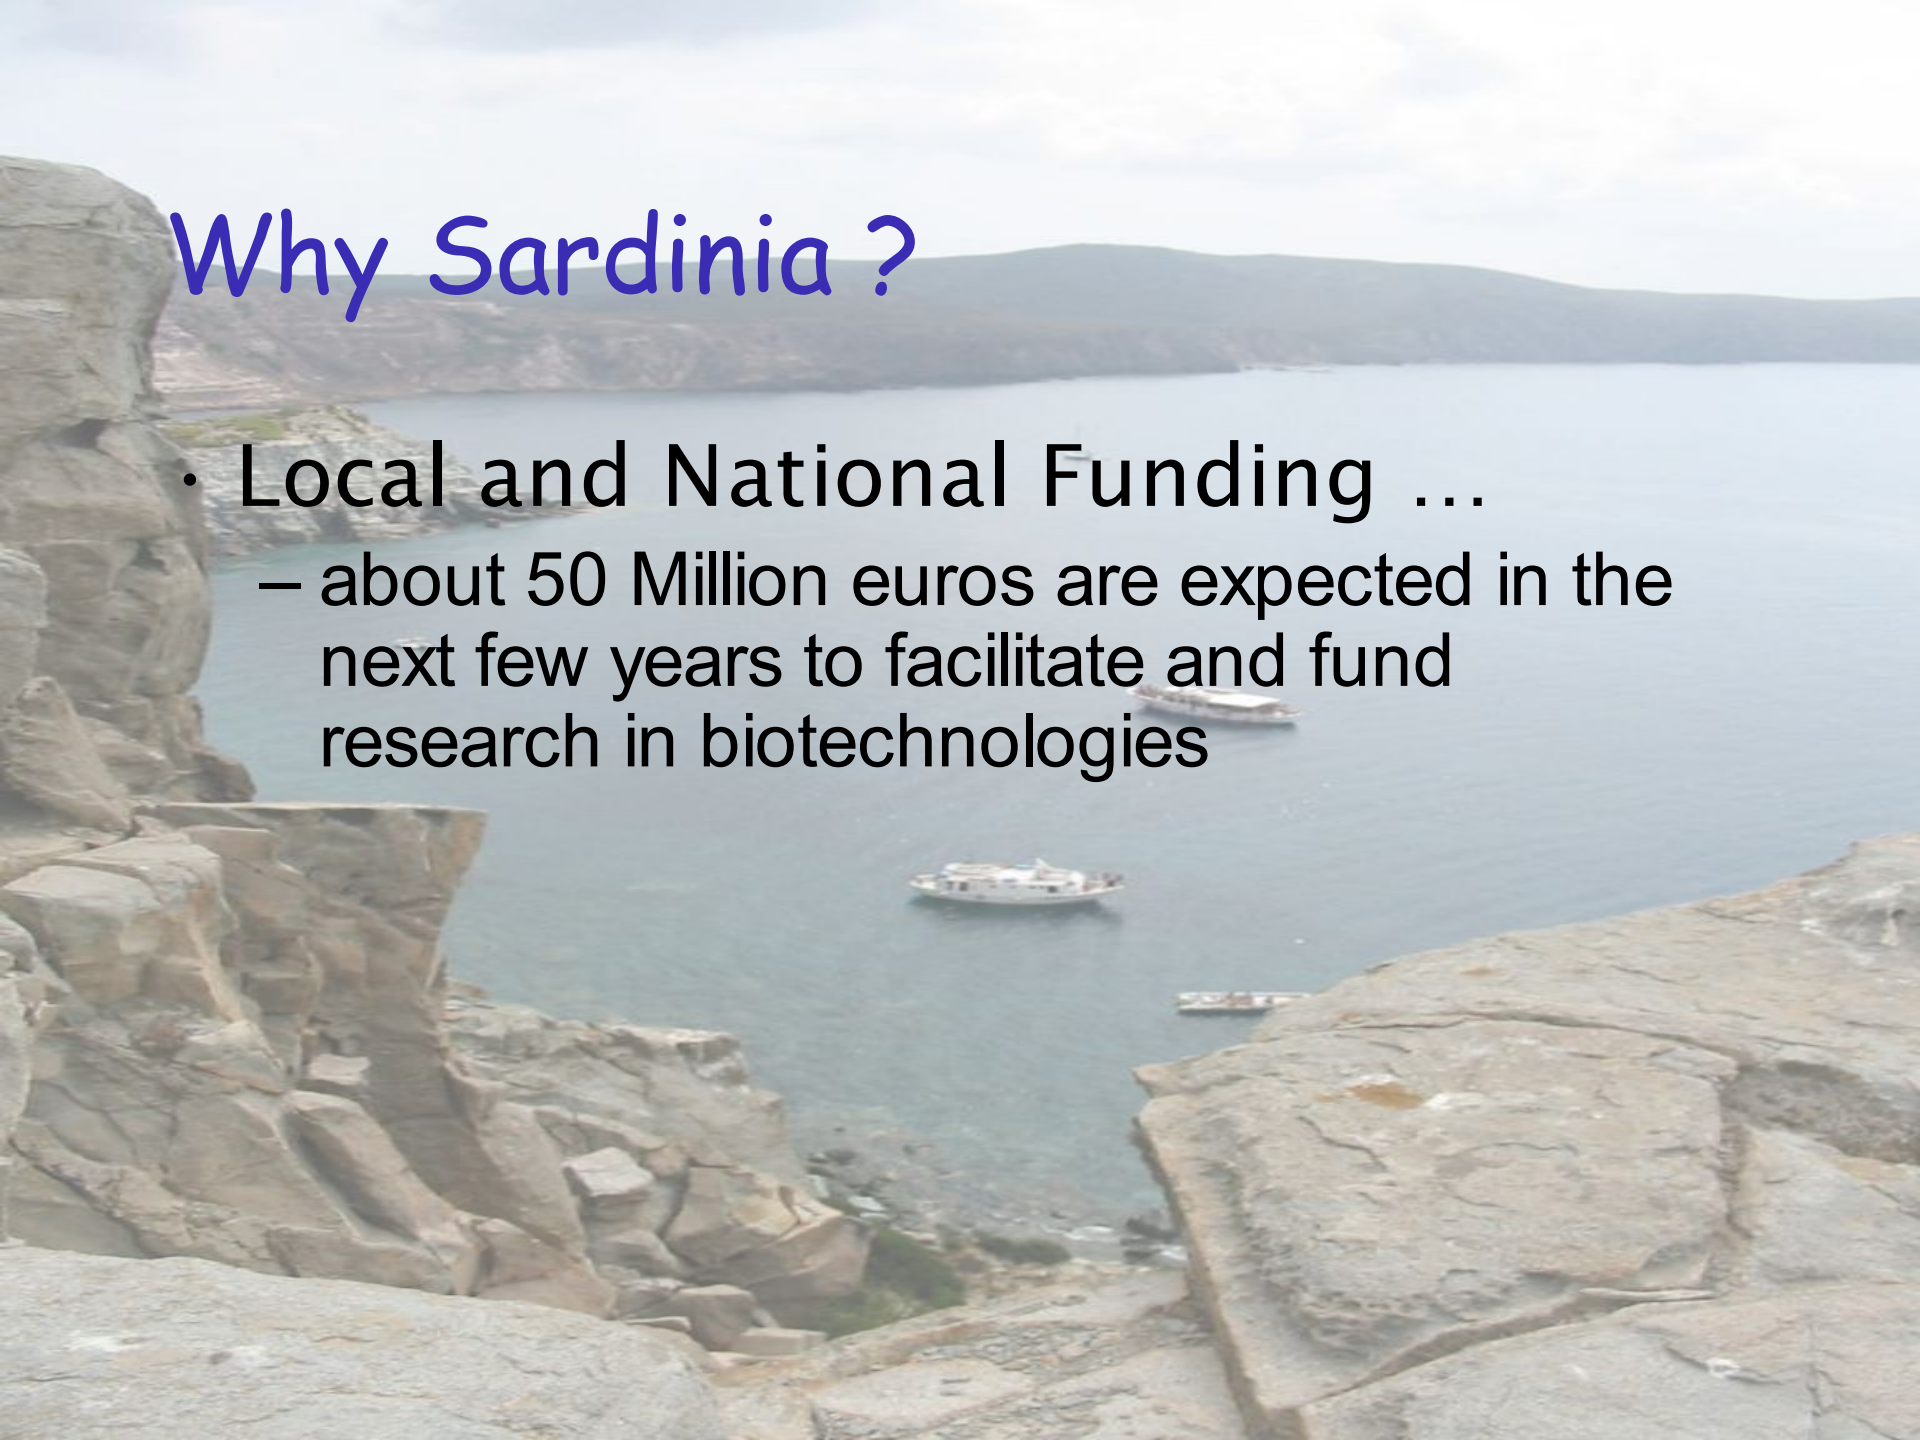

Why Sardinia ?

- Biotech Companies
 - Shardna
 - Neuroscienze
 - Sardinia Genomics
 - ...

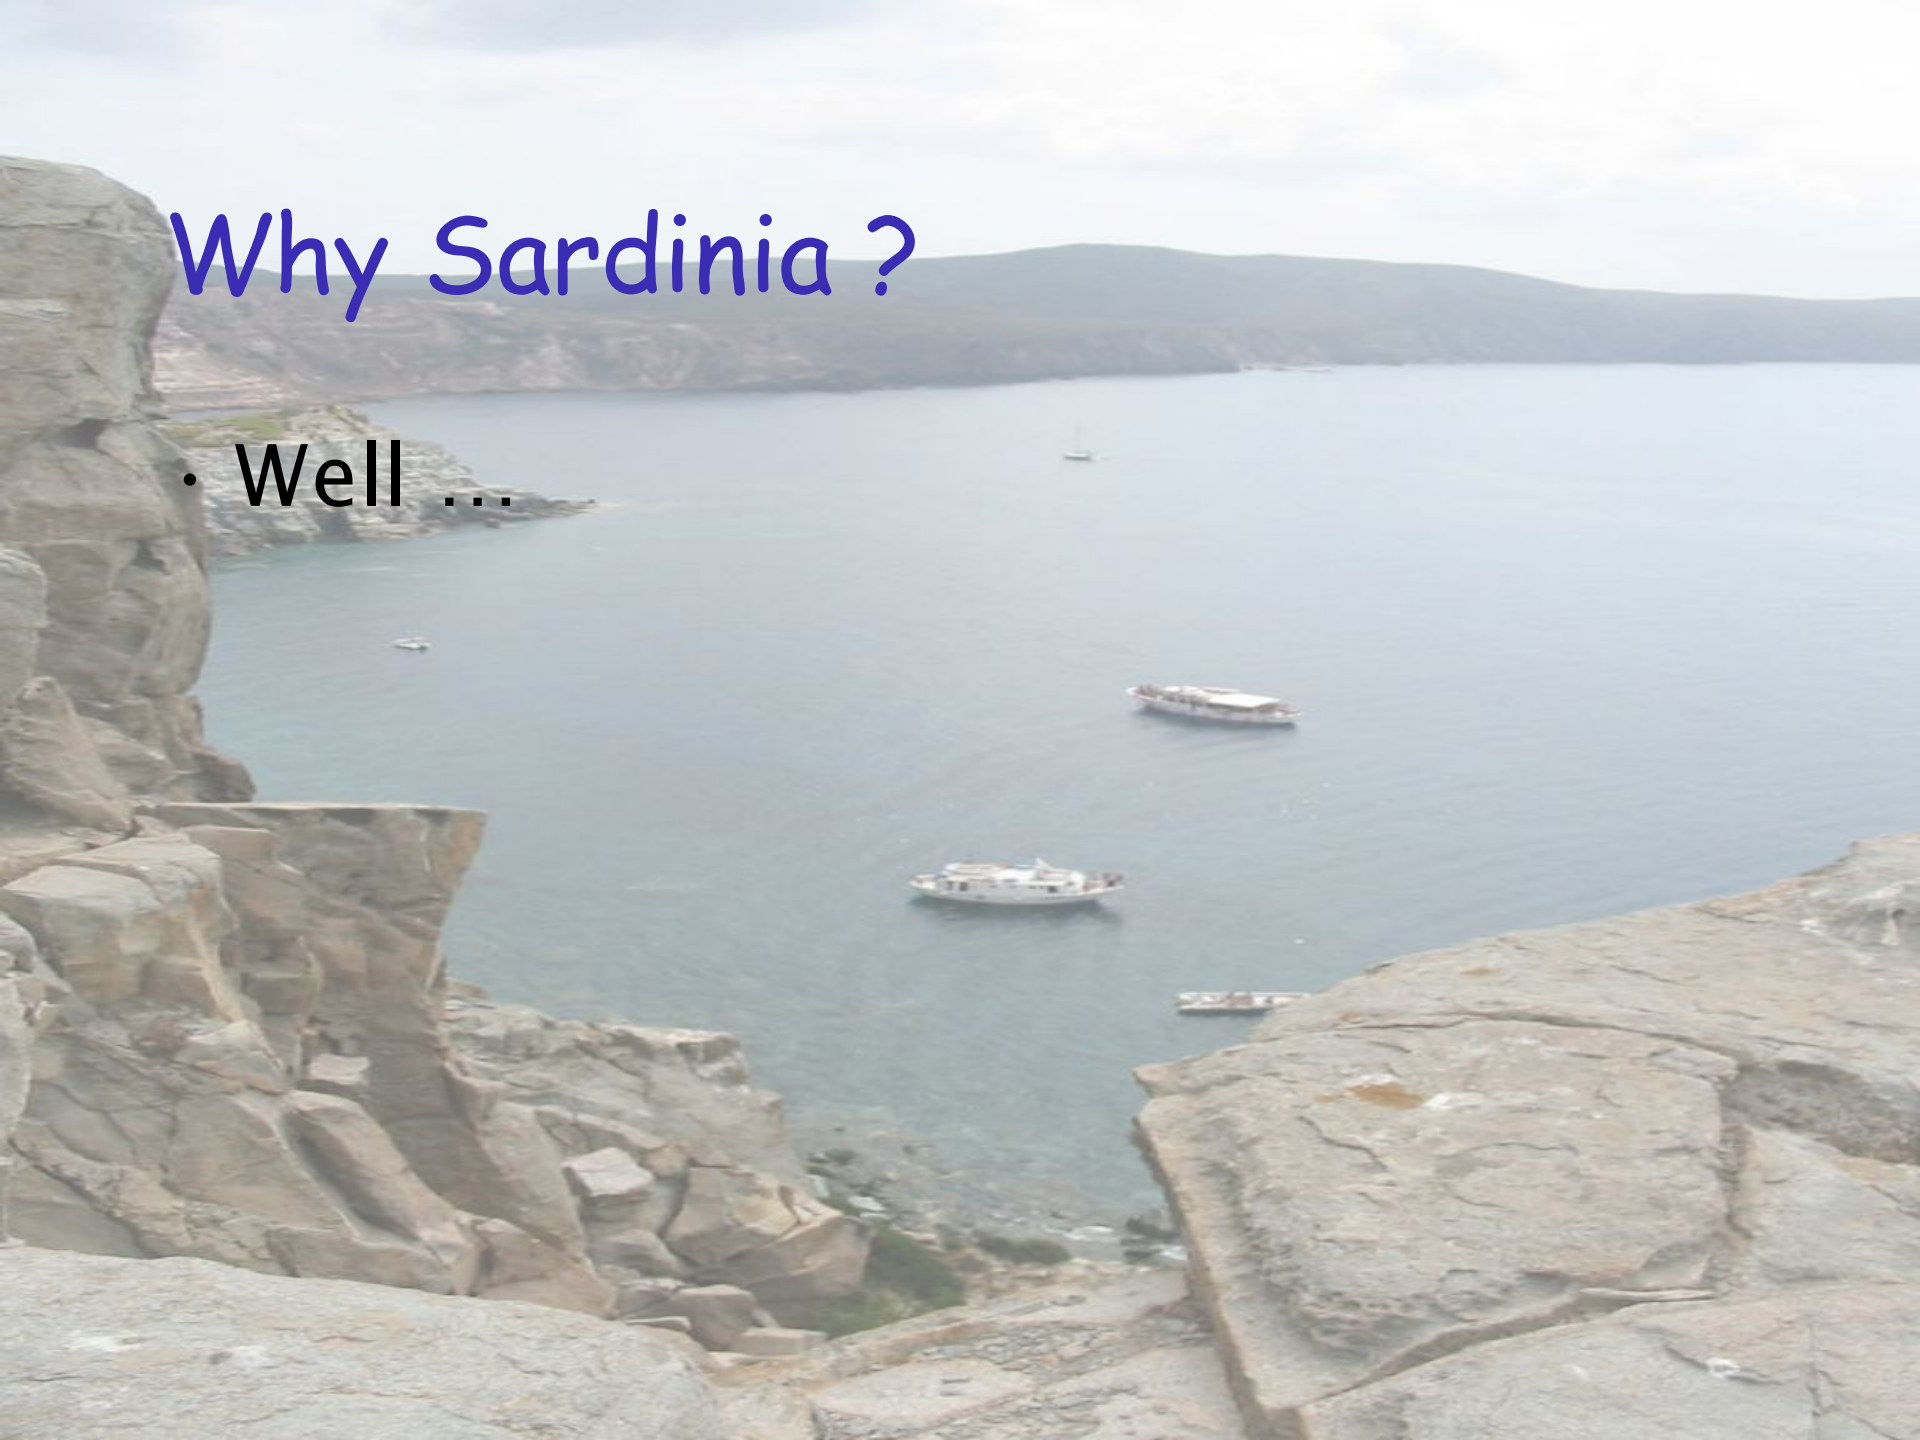

Why Sardinia ?

- Local and National Funding ...
 - about 50 Million euros are expected in the next few years to facilitate and fund research in biotechnologies

Why Sardinia ?

- Well ...

Why the selected topics

- Growing (huge) amounts of **distributed** data to be dealt with
- Need for suitable **infrastructures** and **tools** for data sharing and data integration
- Need for extra computational power (e.g., **GRID**)
- Need for experimenting new solutions in terms of state-of-the-art technologies (e.g., **WEB services**)

Scheduled for December 15th, 2005

Workshop WEB Site

- www.nettab.org/2006
mirrored on
- www.diee.unica.it/nettab06
- For more information:
info@nettab.org
nettab-announce@nettab.org (newsletters)

Scheduled for January 31st, 2006

Preliminary call for papers

- Sections (preliminary):
 - Distributed Applications
 - WEB Services and Network Tools
 - GRID Infrastructures
 - Data Sharing and Data Integration
- For more information:
info@nettab.org
nettab-announce@nettab.org (newsletters)

*We hope to meet you next
year at NETTAB 2006 in
Sardinia !*
